To learn more about the workshop training content and the
HPI – Hugh A. Palmer Inc. PSS™ credential please visit

www.pipelinesecurity.ca

Designed to develop professional skills for protecting national and international critical infrastructures NPSIA-PT&D is pleased to offer our first workshop programs in Critical Infrastructure Protection with a focus on pipeline network security.

These programs are offered in cooperation with HPI – Hugh A. Palmer Inc.'s industry recognized Pipeline Security Specialist™ Programme.

All training is conducted at Carleton University campus and nearby industry locations.

For Canadian and International participants visiting Ottawa for the workshop NPSIA-PT&D is happy to provide a Summer Residence Option at Carleton University
